

College of Electronic Technology

The Final Exam of English III

Third Semester (Spring 2019 A)

Name ..... Group ..... Number .....

Q1. Fill each space with a suitable word: (There are extra words)

parameters    computer    configure    network  
cables    name    digital    format    phone  
5    6    7    8    9

A modem router is a device that connects your computer or home LAN to the Internet. To install a wired modem router plug one end of the phone cord directly into a phone jack, and the other end into the ADSL port on the router. Plug one end of the Ethernet cable into your computer's network port and the other end into an Ethernet port on the router. Turn on your computer. To set up, or configure, the router you need to input some parameters, for example your ISP's name and phone number.

(10 marks)

Q2. Tick true (✓) or false (X) in front of each sentence then correct the false ones:
