College of Electronic Technology

The Final Exam of English I (Fall 2019)

Name .... No .... Section ....

Q1. Fill each space by using a word from the list:

chip	CPU	integrated	instructions	processor
store	speed	registers	piece	electrical

The nerve centre of a PC is the ....5........, also it is called the ....2........ . It is built into a single ....1............ which executes program ....4........ The chip itself is a small ......9.......... of silicon with a complex ....10........ circuit called an ....3........... circuit. The power and performance of a computer is partly determined by the ....7.......... of its processor. The processor consists of: The control unit, the arithmetic logic unit and the registers which are used to ......Store... and control data.

(10 marks)

Q2. Answer the following questions:

1. What does BIOS stand for?

It Stands for Basic input/output system

2. How many parts does a computer system consist of?

It consists of two parts

3. Which memory is temporary?

RAM

4. What are buses?

Buses are electrical channels help devices inside the computer to communicate with each other.

1

5. What is the function of the system clock?

It measures and synchronizes the flow of data

Q3. Correct the false sentences:

1. <u>Input</u> devices enable us to extract the finished product from the system .....Output..

2. <u>Hardware</u> is a set of instructions called a program.

.....Software..

3. Expansion slots allow users to install expansion cards. ✓

....

4. Clock <u>power</u> is measured in <u>megahertz</u>.

.................speed......................~~megahertz~~ gigahertz...........

5. <u>ROM</u> capacity can be expanded by adding extra data.

..RAM..

6. The bus width is the <u>speed</u> of a bus.

.....................................size..

7. Printing is the <u>first</u> stage in creating a document.

........................Final..

8. Plotters use paper and fine pens. ✓

....

9. The monitor is an <u>input</u> device.

........................output..

2

Scanned by TapScanner

10. Function keys appear at the bottom of the keyboard.

....top..

(20 marks)

Q4. <u>Write nouns that collocate with the following verbs:</u>

1. Store ....information..........

2. Do ....research...............

3. Make ....calls...............

4. Send ....text...............

5. Enter ....PIN...............

(10 marks)

Q5. <u>Choose the right answer:</u>

1. (Which/Who) refers to things.

2. This device is for (watch/watching/watched) videos.

3. A computer is used by a teacher to (gave/give/gives) presentations.

4. That is the scanner he (like/liked/likes) to buy.

5. This device works by (turn/turning/turned) it on.

6. They (living/live/lived) in Paris.

7. Computers (who/that) are used in banks can carry out financial transactions.

8. This system is for (accessing/transferring/displaying) money.

9. A webmaster is a person (which/who) designs websites.

10. They (are /am/were) working in GM as software engineers last year.

(BEST LUCK)   (10 marks)

The Final Exam of English I (Fall 2020)

Name ……………………………… No ………………… Section ………………

Q1. Fill each space by using words between brackets:

1 transfer	2 experts	3 scan	4 output	5 printer	6 bar codes
images	expensive	printers	quality	document	quickly
7	8	9	10	11	12

Printing is the final stage in creating a d……11………… You should take into account that …………9………… vary in cost, speed and print …………10………… Technology is evolving so ………12………… that there is always a …..5………… for every application. Laser printers produce ………4……… at great speed. They ………3……… the image with laser beam and ………1………… it to paper with a special ink powder called toner. Laser printers are preferred by …………2………… . However, they are still …………8……… for home users. Thermal transfer printers are used to produce colour …………7…………… They are popular for printing …………6………… .

(12 marks)

Q2. Answer the following questions:

1. What are the most common input devices?

The most common input devices are the keyboard and the mouse

2. Which printers can print text and graphics?

Dot matrix can print text and graphics paragraph

3. What does RAM stand for?

It Stands for Random Access Memory

4. Which keys are used to move the cursor that can be an alternative to the mouse?

Arrow key

5. What does ALU stand for?

It stands for Arithmetic Logic Unit

6. What is the function of the clock system?

It measures and synchronizes the flow of data

7. What does CPU stand for?

It stands for Central Processing Unit

(14 marks)

Q3. Correct the false sentences:

1. The keyboard is one of the main parts of the CPU. ✗

registers

2. The motherboard is the main circuit board in the computer system.

3. RAM is a permanent memory. ✗

temporary

4. The size of the bus is called bus length. ✗

width

5. 'BIOS' stands for Base Information/Operation Speed. ✗

Basic input/output system

(10 marks)

Q4. Write down nouns that collocate with the following verbs:

1. Access ...... the Internet

2. Keep ...... records

3. Transfer ...... money

2

4. Enter ....PIN..

5. Display ....data..

6. Make ....calls...

Q5. Select the right answer:

1. This device is for (control/controlling/controlled) the cursor.

2. They (lived/live/living) in Paris in 1999.

3. Teachers use projectors to (gave/giving/give) presentations.

4. Computers (who/that) are used in banks can carry out financial transactions.

5. This is the computer she (wants/want/wanted) to sell.

6. Which device is used to (playing/play/played) video games?

7. The new machine works by (press/pressed/pressing) a button.

8. A web master is a person (who/which) designs websites.

9. They (were/are/am) working when they arrived in.

10. We use (which/who) to refer to a thing.

11. I (am not/do not/did not) have time to meet her yesterday.

12. She is (studies/studying/studied) programming.

(12 marks)
